About the Instructor

I have been involved with fire and emergency services for approximately 6 years. For the last 3 years I have been active with the City of Lancaster, Division of Fire as a Firefighter/Paramedic, Certified Firefighting Instructor, special topics EMS instructor and Basic Life Support Instructor. I have been teaching CPR and First Aid since 2004 and have provided high quality training to many people and locations in Fairfield and Franklin County. In 2007, I formed CPR & Fire Safety Solutions. CPR & Fire Safety Solutions is dedicated to high quality training with "real world" experience and flexibility of training hours and locations. All of this is provided at a very reasonable cost. I have been certified to teach for The American Safety and Health Institute, through the Lancaster Fire Department Training Center. If you or your company is interested in having me provide CPR, First Aid or any other occupational safety program, please contact me at 614-588-9328 or bsmith@cprfiresafety.com
